***Note: We calculate time to program completion based on *final graduation date*. This occurs after the internship year, and in many cases as much as 9 months after all requirements, including internship, are completed, because students often wait to graduate in university ceremonies until the following May.

***Thus, actual time spent in residence on average, excluding internship, is approximately 1 year less than the numbers below.

6 Mean number of years students take to complete program from time of first matriculation.

7 Median number of years students take to complete program from time of first matriculation.

Also, please describe or provide a link to program admissions policies that allow students to enter with credit for prior graduate work, and the expected implications for time to completion. Please indicate NA if not applicable:

Program Costs

Description	2022-2023 1 st -year Cohort Cost
Tuition for full-time students (in-state)	0
Tuition for full-time students (out-of-state)	0
Tuition per credit hour for part-time students (<i>if applicable enter amount; if not applicable enter "NA"</i>)	NA
University/institution fees or costs	0
Additional estimated fees or costs to students (e.g. books, travel, etc.)	\$500

***NOTE: All graduate students are offered financial assistance. Our program offers the following minimum for all students admitted to the program: [1] living stipend of at least \$28,000 per 12-month year, [2] all tuition expenses are covered, and [3] individual health insurance through the University Health plan. These are covered for a minimum of five years. The stipend, tuition, and insurance are covered through a combination of funds from fellowships, teaching assistantships, and research assistantships. Please note that the \$28,000 offer is a minimum guarantee. The annual stipend often exceeds the minimum because many students receive funding from sources beyond teaching, such as research fellowships, faculty grants, distinguished teaching fellowships, or from outside funding agencies. In the past decade, all students have received full funding through their first 5 years, and the majority beyond that as well.
